

## **EMA Wireless Data Solutions is looking for distribution partners!**

EMA Wireless Data Solutions is a leading Telematic systems developer and manufacturer. Focusing on maritime applications, EMA develops a range of BlueTraker® solutions for commercial and leisure vessels, which offers global tracking, monitoring and surveillance of vessels at low investment and for a modest air-time cost.

### **We seek distributors Worldwide!**

EMA's BlueTraker® technology, the next generation building block solutions portfolio includes:

- **VMS** – Vessel monitoring System
- **LRIT** – Long Range Identification and Tracking
- **CFM** – Charter fleet management
- **YMS** – Yacht management System
- **RACE** – Marine sport events tracking
- **AIS** – Satellite-Automatic Identification System

EMA sees its mission in the light of thorough customer business understanding in order to offer a suitable tracking platform and Telematic data services. EMA is certificated for Quality Management System ISO 9001:2000.

### **We offer excellent products, competitive end user prices and attractive distribution rebates!**

EMA offers global sales and services support through qualified distribution partners. If you are interested in becoming a Distributor or System Integrator for our products & services, we kindly invite you to fill-in the Distributor Application Form or contact us on [bluetraker@ema.si](mailto:bluetraker@ema.si).

### **Change is inevitable...Go for BlueTraker®!**
