

## NEW & RENEWED ALLIANCES WITH EMA

EMA has been establishing new partnerships across the globe and one of the latest partnerships is Eastern Delight (Hong Kong) as our hardware system integrator.

Eastern Delight Ltd. is a satellite communication service provider & distributor for land, marine and mobile communications products and services to global customers, offering an entire range of voice and data solutions, wide selection of equipments and airtime tariffs.

On the other hand, we have extended our alliances with MEC from Venezuela as a VMS strategic partner. Nevertheless, MEC specializes in sales and distribution of various maritime electronic solutions and has a long-term experience in electronic service support.

Moreover, EMA has successfully been cooperating with Trackwell from Iceland as a system integrator for software and hopes for a great business cooperation further on in future.

Last but not least, a few Slovenian partners have joined our group of partners – Navimar Navtika (<http://www.navigaceneje.si/search.php?mode=search&page=1>), Navtika Cizej and STAL elektronik ([http://www.stal.si/docs/Avtomatski\\_sistem\\_za\\_identifikacijo\\_plovil.pdf](http://www.stal.si/docs/Avtomatski_sistem_za_identifikacijo_plovil.pdf)), offering BlueAIS transponders. You can also find more information regarding BlueAIS on their web page.
